## EDUCATION

**Indian Institute Of Information Technology, Una**  
*Bachelor of Technology, Computer Science and Engineering, CGPA: 7.88/10*

Una, Himachal Pradesh, India  
*December 2020 - June 2024*

## WORK EXPERIENCE

**Product Stack (Pay Direct)** (*SDE intern*) June 2024 - Present

- Developed **AWS Lambda functions** to receive vendor details from the client-side front-end and authenticate **AADHAR, PAN, and GST information** using **Signzy services** via **RESTful APIs** for risk management and **KYC verification**.
- Devised a solution to securely store authenticated vendor data in **AWS S3 buckets**, ensuring **data integrity** and **compliance with security standards**.

**MyFab11** (*SDE intern*) [[Certificate](#)] January 2023 - May 2023

- Implemented **TrueCaller SDK**, **reducing manual verification time by 40%** and increasing new user sign-ups by **25%**, boosting revenue.
- Engineered a **backend-controlled tooltip system** using **MVVM (Model-View-ViewModel)** architecture, **reducing code redundancy by 30%**, enhancing maintainability.
- Launched a **rating feature** focusing on **user experience**, resulting in a **25% surge** in user engagement and a **10% boost** in overall app ratings.

## PROJECTS

**ExitPro** | *Android Studio, XML, Kotlin, Node.js, Express.js, MongoDB* O: [ExitPro Android](#) O: [ExitPro Back-end](#)

- Automated student entry and exit logging using **barcode-based logging**, **boosting efficiency by 70%** and reducing wait times by **50%**, Applied **Retrofit** for API fetching and **RecyclerView** for log display.
- Secured entries and exits, preventing unauthorized access, **Fingerprint authentication** increased accuracy to **95%**, and the **OTP based authentication** system reduced unauthorized attempts by **80%**.
- Developed a **Node.js** and **Express.js** back-end with a **MongoDB Atlas** database, utilizing **Mongoose** for efficient data manipulation, **reducing data access time by 30%**, Implemented modular, clean code with standard naming conventions, **cutting debugging time by 40%** thereby enhancing maintainability.

**Leafify App** | *Java, XML, Android Studio, TensorFlow* O: [github.com/sayak22/leafify/](https://github.com/sayak22/leafify/)

- Engineered a Java-based Android app for leaf health classification (Healthy & Diseased) with an **accuracy of 95%**.
- Optimized **TensorFlow Lite** usage, reducing prediction latency by **20%** and improving overall application responsiveness.
- Upgraded features, **increasing user satisfaction by 30%** for capturing or uploading leaf photos and efficient health predictions.

## TECHNICAL SKILLS

<b>Languages:</b>	C, C++, JavaScript, Node.js, Express.js, MongoDB (NoSQL), Java, SQL
<b>Relevant Coursework</b>	Data Structures and Algorithms (DSA), Database Management Systems (DBMS), Operating Systems (OS), Object-Oriented Programming (OOP)
<b>Technologies &amp; Frameworks:</b>	VS Code, Firebase, RESTful API, AWS (S3, cloud9), Postman, Linux, GitHub, Git, CRUD operations, Shell Scripting, Agile
<b>Coding Profiles:</b>	<a href="#">CodeChef</a> Highest rating: 1732, <a href="#">GeeksForGeeks</a> , <a href="#">LeetCode</a> .

## ACHIEVEMENTS

- Secured **Global Rank 3449** among 10K+ participants in **Google HashCode 2022**.
- Winner** of the inter-branch football tournament, **Yalgaar '22'**.
- Finalist in **Technizibition** at **Cognizance 2021**, the tech fest of **IIT Roorkee**, among 150+ participants. [[Certificate](#)]

## LEADERSHIP EXPERIENCE

- Founded** and **led** the sports club of IIIT Una, **Zenith**, overseeing activities of 10+ sports. September 2023 - Present
- Endorsed 5+ **Microsoft** tech products as a student learn ambassador. [[Certificate](#)] July 2022 - June 2023
